

# 1 NO POVERTY

## Goal 1: End poverty in all its forms everywhere

By 2030, eradicate extreme poverty for all people everywhere.

Reduce by at least half the proportion of people of all ages living in any form of poverty. Implement nationally appropriate social protection systems and measures for all.

Ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance.

Build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters.

# 2 NO HUNGER

## Goal 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

By 2030, end hunger and ensure access by all people, including infants, to safe, nutritious and sufficient food all year round.

End all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons.

Double the agricultural productivity and incomes of all small-scale food producers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment.

Ensure sustainable food production systems and implement resilient agricultural practices that increase productivity, help maintain ecosystems, that strengthen capacity for adaptation to climate change and other disasters and that progressively improve land and soil quality

By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, and promote access to, and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge

## 3 GOOD HEALTH

### Goal 3: Ensure healthy lives and promote well-being for all at all ages

By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births. End preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births

End the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases. Reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and wellbeing. Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.

By 2020, halve the number of global deaths and injuries from road traffic accidents. By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education. Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe and affordable essential medicines and vaccines for all.

## 4 QUALITY EDUCATION

### Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes. Ensure that all girls and boys have access to quality early childhood development, care and pre-primary education.

Ensure equal access for all to affordable and quality technical, vocational and tertiary education, including university. Substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship. Eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations .

Ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy. Ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles.

## 5 GENDER EQUALITY

### **Goal 5: Achieve gender equality and empower all women and girls**

End all forms of discrimination against all women and girls everywhere.

Eliminate all forms of violence against all women and girls in the public and private spheres. Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation.

Recognize and value unpaid care and domestic work through the provision of public services, infrastructure and social protection policies and the promotion of shared responsibility within the household and the family as nationally appropriate.

Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life. Ensure universal access to sexual and reproductive health and reproductive rights.

## 6 CLEAN WATER AND SANITATION

### **Goal 6: Ensure availability and sustainable management of water and sanitation for all**

By 2030, achieve universal and equitable access to safe and affordable drinking water for all.

Achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations.

Improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and material, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.

Substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity. Implement integrated water resources management at all levels, including through transboundary cooperation as appropriate .

By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes.

## 7 RENEWABLE ENERGY

### **Goal 7: Ensure access to affordable, reliable, sustainable and modern energy for all**

By 2030, ensure universal access to affordable, reliable and modern energy services.

By 2030, increase substantially the share of renewable energy in the global energy mix.

By 2030, double the global rate of improvement in energy efficiency, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology.

By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States, and land-locked developing countries, in accordance with their respective programmes of support.

## 8 GOOD JOBS AND ECONOMIC GROWTH

### **Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all**

Sustain per capita economic growth in accordance with national circumstances.

Achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value. By 2020, substantially reduce the proportion of youth not in employment, education or training.

Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, and by 2025 end child labour in all its forms. Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment.

By 2030, devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products. Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all.

## 9 INNOVATION AND INFRASTRUCTURE

### **Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation**

Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all.

Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries. Upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and more environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities.

Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending.

## 10 REDUCED INEQUALITIES

### **Goal 10: Reduce inequality within and among countries**

By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average.

Empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status. Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard.

Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality. Improve the regulation and monitoring of global financial markets and institutions and strengthen the implementation of such regulations.

Ensure enhanced representation and voice for developing countries in decision-making in global international economic and financial institutions in order to deliver more effective, credible, accountable and legitimate institutions.

Facilitate orderly, safe, regular and responsible migration and mobility of people.

## 11 SUSTAINABLE CITIES AND COMMUNITIES

### Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable

By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums. Provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons.

Enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries.

Strengthen efforts to protect and safeguard the world's cultural and natural heritage.

Reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.

Provide universal access to safe, inclusive and accessible, green and public spaces.

## 12 RESPONSIBLE CONSUMPTION

### Goal 12: Ensure sustainable consumption and production patterns

Implement the 10-Year plan for Sustainable Consumption and Production Patterns, with all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries.

By 2030, achieve the sustainable management and efficient use of natural resources.

By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment.

By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse. Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle.

Ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature.

# 13 CLIMATE ACTION

## Goal 13: Take urgent action to combat climate change and its impacts

Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries. Integrate climate change measures into national policies, strategies and planning.

Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning.

Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible.

Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities.

# 14 LIFE BELOW WATER

## Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development

By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities. By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts and take action for their restoration in order to achieve healthy and productive oceans.

Effectively regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-based management plans, in order to restore fish stocks in the shortest time feasible, at least to levels that can produce maximum sustainable yields.

Conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information.

Prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing.

By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism.

## 15 LIFE ON LAND

### **Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss**

By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements. Promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation.

By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world.

Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and protect and prevent the extinction of threatened species. Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products. By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems.

## 16 PEACE AND JUSTICE

### **Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels**

Significantly reduce all forms of violence and related death rates everywhere. End abuse, exploitation, trafficking and all forms of violence against and torture of children.

Promote the rule of law at the national and international levels and ensure equal access to justice for all. By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime. Substantially reduce corruption and bribery in all their forms.

Develop effective, accountable and transparent institutions at all levels. Ensure responsive, inclusive, participatory and representative decision making at all levels. Broaden and strengthen the participation of developing countries in the institutions of global governance.

Provide legal identity for all, including birth registration. Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements.

# 17 PARTNERSHIPS FOR THE GOALS

## **Goal 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development**

Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance to developing countries and 0.15 to 0.20 per cent of that to least developed countries. Overseas Development Assistant providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries.

Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda.

Enhance policy coherence for sustainable development. Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development

Enhance the Global Partnership for Sustainable Development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the Sustainable Development Goals in all countries, in particular developing countries
